

## **Randolph County Driveway Pipe Policy**

- Citizen requests a pipe installation and marks location to install the pipe or meets on site.
- Randolph County Highway Department does a site evaluation to size the pipe, check sight distance, and address potential issues.
- Citizen buys the pipe and notifies Randolph County Highway Department when it is on site.

### Specifications:

-Metal or Concrete

-20 TO 40 foot installs. Will not extend beyond 40 feet.

-No more than 2 tri-axle loads of backfill with less than a small dump truck load of crushed stone.

-If the location ties into the edge of pavement the citizen is responsible for having the hill graded down so water can flow into the ditches/drains and not into the road.
